

## UNDER 13 TOP TEN CHAMPIONSHIP PERFORMANCES

Listed on the next three pages are the top ten performances achieved in Surrey County Championships by athletes in the Under 13 (or equivalent) age group. In track events performances from heats (h), semi-finals (s) and finals are considered separately. In field events only the best performance from a single competition are shown. Performances from Combined Events Championships (p) as well as the individual Championships are included. The years shown after an event are the years in which an individual championship has been scheduled.

## ***SURREY COUNTY ON THE INTERNET***

The County web-site [www.surreyathletics.org.uk](http://www.surreyathletics.org.uk) has been available since 2001. It contains information which I hope is of interest to followers of athletics in Surrey. In the early days we were averaging around 6000 pages viewed per month. In 2008 the average figure was around 62,400 pages viewed in 7,500 visits per month. As you might expect there are peaks shortly after our main championships as visitors look for results.

The site has recently undergone a redesign. This has been prompted by the growing number of pages and the need to make it easier to maintain. In the past information that has been shown on more than one page has been duplicated and this leads to the possibility of inconsistencies where one page is updated and not another. To overcome this, where possible, this duplicated information is stored once in a table and when your browser requests such a page the information is extracted from the table and the page is built dynamically.

There is a set of databases that support the web-site. In particular County Track & Field Rankings (2000 onwards, 18,300 records); County Track & Field Championship Results (1985 onwards, 38,100 records); Inter-County T&F results (2000 onwards, 1,800 records) and the performances by Surrey athletes at the Major International (1,200 records) and National (1,200 records) Championships are held within these databases.

As the information held is about performances by athletes each record has a key which uniquely identifies the relevant athlete. In order to create a unique identity the key is built from the athlete's full name and their date of birth. At present there are over 3100 athletes who have been identified in this way. This means that it has been possible to provide a facility for viewing the information stored for a particular athlete which is called the "Athlete Profile".

To view the profile of a particular athlete select "Athlete Profiles" from the Home Page. This will show all those athletes whose family name starts with the letter A (For names beginning with other letters then click on the letter). If the athlete you are seeking is shown then click on the name and this will display their profile.

A further option where you can make a selection is to search the Surrey T&F Championships results using a combination of different criteria. Select "T&F Championship Results Database" from the Home Page. Then select "Search by Event". Here you will be able to choose from a range of options. You could for example find all the finalists in an event for a particular age group from your club.

Given the large amount of data involved which has all been input manually from paper records there is a strong possibility of errors occurring. If you know of any then please inform me so that I can correct them. It is my aim to have Surrey Championship results back to 1980 loaded in the next few weeks and back to the mid-1970s by the end of year. At that stage the results at my disposal run out. If anyone has older result sheets then please let me know.
